www.kumpulanjebco.com

Kumpulan Jebco (M) is a leading regional manufacturer and developer of Anti-Vibration Systems to original equipment manufacturers (OEM) for the automotive, railway and industrial sectors. With over 40-years experience of providing quality products that offer superior performance, efficiency and reliability, the company serves customers in more than 15 countries through a network of sales offices and warehouses in Malaysia, Europe and the USA.

Versatile and Comprehensive Design Capabilities

By working closely with our customers, we examine all requirements before any development work begins. Our experienced engineers use 3D/CAD and Abaqus CAE software to optimize all aspects of design work. Prototypes or off-tool samples are produced and scrutinised according to all processing requirements to ensure that the quality can be consistently reproduced during production.
